EXPERIENCE

VERIZON | VLDP SECURITY

March 2016 – Present | Little Rock, AR

June 2015 – August 2015 | Temple Terrace, FL

- Set up a high availability and load balanced ELK cluster on linux.
- Evaluated various queue management software for our ELK environment.
- Created various Ansible playbooks for the deployment of our ELK cluster.
- Used tcpdump and Wireshark to debug issues during the ELK deployment.
- Assisted in the logging on-boarding of various application teams.
- Created an application that sends TCP and UDP logs for stress testing.
- Assisted in the installation of Pivotal Cloud Foundry with OpenStack.

June 2014 – August 2014 | Orangeburg, NY

- Queried Oracle DB using Python to correlate records from another source.
- Used HTML/CSS/JS to alter VM deployment fields on our web portal.
- Installed ESXi on multiple hosts and added them to our existing infrastructure.
- Assisted in updating multiple ESXi hosts.

CALERO SOFTWARE LLC | NETWORK ADMINISTRATOR

May 2013 – June 2015 | Rochester, NY

- Assisted in the merger of three companies:
 - Migrated various scripts and applications to our new domain.
 - Supported existing legacy domains and systems.
 - Configured firewall and NAT rules for various applications and sites.
 - Created PowerShell modules that migrated Exchange mailboxes.
 - Assisted in the migration from Cisco to Lync telephony.
 - Deployed Help Desk application for new domain.
 - Trained IT new hires.
- Created various scripts:
 - Auto deployment of hosted application instances using PowerShell.
 - Used PowerCLI to automate tasks as well as generate reports.
 - Automated an Exchange Journal backup to disk in PowerShell and Bash.
 - Wrote an SMTP service in Python that logs to file for the developers.
- Set up a high availability and load balanced ELK cluster on linux.
- Set up a publicly facing BIND server in a chroot jail
- Staged and deployed application development environment.
- Created and managed Veeam Backup & Restore replication jobs.
- Managed vCenter environment with multiple hosts.
- Performed various help desk tasks.
